### Product Highlights

650 lb. weight capacity

Reduces the risk of staff and patient injury by delivering the hip, knee, and ankle joint support required during the sit-to-stand motion path

Moves easily and locks in place to provide bedside and over-the-toilet assistance anywhere in your facility

Converts facility toilets to taller ADA height and increased weight rating without costly construction and plumbing modifications

Large flat transfer seat with removable grab bars ensures safe, comfortable toileting transfers

Pod design encloses mechanics for easy unit cleaning; open front enables easy cleaning of toilet and surrounding area

Innovative drop-in commode bucket hygienically accommodates bedside toileting needs

Handheld control pendant gives caregivers the ability to operate the lifting process

# The Bedside to Bathroom Toileting Solution

Whether used as a bedside commode or over-the-toilet, the LS600 Bariatric Toilet Lift's versatile design delivers a safe, stable, easy-to-use toileting solution that greatly reduces the physical force required by caregivers to help patients on and off the toilet. The LS600 also moves easily from room to room to support a facility's toileting needs.

## Handheld Control

Handheld control pendant gives caregivers control of the lifting process.

## Portable Bedside Commode

With our reusable, elongated drop-in commode bucket, the LS600 offers a portable, reliable motorized bedside commode solution. The smooth, secure swivel locking wheels and ergonomic push bar make it easy to position the LS600 at bedside when needed.

## Removable Grab Bars

Stable grab bars can be lifted to facilitate lateral transfers.

## Power Options

Can be configured with AC power or a DC rechargeable battery.

## Over-the-Toilet

The LS600 helps facilities comply with today's taller ADA toilet height and increased weight requirements without costly construction and plumbing modifications.

## Flat Transfer Seat

Wide, ergonomic, easy-to-clean transfer seat

## Swivel Locking Wheels

The large wheels can be set to lock in place, allow straight motion only, or swivel freely.
