

# The LiftSeat All Purpose Chair

LiftSeat's sole focus is on developing lifting solutions for people living with physical disabilities or impairments. Our patented, award-winning lifts deliver safe, reliable, and comfortable sit-to-stand assistance for people who battle conditions that compromise their strength and need assistance getting up and down in various environments.

Much like our industry-leading toilet lifts, the All-Purpose Chair helps restore mobility and independence for individuals with neuromuscular conditions, severe arthritis, or elderly adults who want to age safely in their homes.

- Delivers sturdy, safe, stable support
- Reduces the risk of falls and injuries
- Prolongs ability to live at home
- For users of all sizes and medical conditions

---

There are 2 Sizes to accommodate all heights of users.

## Environments

The LiftSeat all-purpose chair gives users unprecedented mobility to interact in many, previously inaccessible environments:

### At the office:

Designed to offer the same ergonomic benefits as modern office chairs, the LiftSeat Chair blends in perfectly to an office setting. When in the seated position, it easily fits under standard desks.

### In the dining room:

A dining chair can be quickly replaced with the LiftSeat Chair to allow for comfortable dining and frustration-free assistance in getting up when the meal is finished.

### In the bedroom or assisted living facility

The LiftSeat Chair is a great option for people who need to sit down while getting dressed. Unlike standard chairs or beds, which are challenging to stand up from and often require a helping hand, a lifting chair can provide greater independence by allowing users to stand on their own.

# Our powered lifts have successfully been used by thousands of individuals suffering from the following conditions:

- Various Forms of Muscular Dystrophy, including: Myotonic, Duchenne, Limb-girdle, Distal, Emery-Dreifuss, Myositis (Inclusion Body and Polymyositis), ALS
- Severe Osteoarthritis of hip or knee
- Stroke Recovery
- Myopathy
- Any condition that complicates the ability to go from sitting to standing

Back Rest is adjustable up and down, front to back for maximum comfort.

Optional battery operation.

### 3 different motion path settings:

- Straight vertical lift
- Slight Angular Tilt
- Moderate Angular Tilt

- Easy to use remote that can be repositioned to either arm rest
- Detachable armrests
- Front waterfall edge on seating
- 4 medical grade locking casters - lock both direction and rotation.
